

Depress power button on back of light to power on, switch modes, and power off.

Batteries Included! To install batteries, remove lens from light body by inserting and turning a coin or large screwdriver into slot on side of light.

Insert batteries following the +/- diagram molded into the battery chamber. For best performance, do not mix old and new batteries.

1. Stretch rubber strap to fit around any tube on your bike.
2. Connect rubber strap to hook on bracket.
3. Slide light into channel until positive click is heard.
