HOW TO SET

The default code is 0-0-0-0. To set your own combination, please follow these steps:

1 Open the lock, slide the reset button (1) 90° from Fig.1 position to Fig. 2 position.
2 Turn the dials (2), to set your own combination to the convex line (Fig.2).
3 Push the reset button (1) back to Fig.3 position. Then the setting is completed,
   you can open the lock with your new combination.

HOW TO USE

1 Dial your passwords to the convex line in the window, pull the cable out of the lock
   housing, the lock is opened.
2 Insert the cable back into the lock housing, turn the dials to scramble the numbers,
   then the lock is closed.
