- > USB RECHARGEABLE
- > WATER RESISTANT IPX4
- > 270 DEGREE VISIBILITY
- > EASY MOUNTING
- > LOW BATTERY INDICATOR

CONTENTS INCLUDED

CONTENTS:

- E-LUME Tail light
- USB cable
- Rubber Mounting bracket
- Manual

LIGHT OPERATION

1. Press and hold the power button for 1 second to switch on or off. (With mode memory, the light will resume previous mode upon next usage.)
- 2 Double click the power button to toggle between the steady and flashing modes.

HOW TO MOUNT THE TAIL LIGHT

Wrap rubber bracket to outer most of of the light. Wrap around seatpost or seat stay, connect to outer most fin on opposite side of the light.

The packaging includes back pieces that correspond to round, square, or aero style posts.

HOW TO CHARGE BATTERY

WARNING: Batteries can only be charged using a USB adapter with a 5v output or USB port on a computer. Only charge batteries in a dry environment. Light has smart charging technology which ensures longer battery life and will not over charge.

- * Charge times depend on light model being charged due to internal components inside light.
- * When the indicator turns flashing blue, it means the battery is below 20%.

Power Button:
Low Battery Indicator - Blue

Power Button:
Charging Indicator
* Flashing Blue - Charging
* Solid Blue - Charged

1. Carefully open rubber dust cover on bottom side of light, exposing the USB port.
2. Insert micro USB cord into light USB port.
3. Charge indicator will start flashing blue within seconds.

Light will automatically stop charging when full charge is achieved and indicator light will turn solid blue. Remove battery from charger and reinsert rubber pull tab into USB port to keep out water and dirt.

You can expect 300-500 charging cycles from this rechargeable battery.

Runtimes are affected above 110° ambient temperature or below 35° ambient temperature. We suggest that you run in the medium or low power modes to extend run time.

Always store battery with a full charge. If being stored for more than a month, recharge monthly.

USER MANUAL

WARRANTY

Go to www.serfas.com/warranty for warranty details and online registration. Limited Lifetime Warranty covers manufacture defects.

Serfas warrants to the original purchaser of this product that the product is free from defects in material and workmanship for the lifetime of the product **with online registration**. This warranty does not apply to damage due to heat, physical damage (crashing) resulting from abuse, neglect, improper repair, improper fit, or alterations of the fixture. This warranty is in lieu of all other agreements and warranties, general or specific, express or implied and no representative or person is authorized to assume liability on behalf of Serfas in connection with the sale and use of this product.

Serfas reserves the right to request the return of any product submitted for warranty consideration. All customers should contact Serfas directly for warranty service.

Battery Warranty: Batteries are covered by a one year warranty from date of purchase.

To make a claim, please e-mail warranty@serfas.com.
If e-mail is unavailable please call Serfas at 623.888.5841.

BATTERY REPLACEMENT

At the end of your batteries lifespan your light allows for the end user to replace the battery. Over time after many charge cycles the battery will lose capacity or stop working altogether due to low voltage. When this happens a replacement battery is available to purchases from Serfas or your local retailer.

HOW TO CLEAN AND CARE FOR THE LIGHT

- * Make sure to clean the dust and dirt off the light with soft damp cloth after every ride.
- * Water resistant is for rain water only. Do not submerge the battery or the whole light into water when cleaning.

CAUTION: Please follow the guidelines below:

- *Use caution when handling, the light may get hot.
- *Unplug the battery and headlight if not in use.
- *Unplug the battery and charger if not in use.
- *Unplug connector by the plug end, never by pulling on the cable.
- *Do not amend or replace any parts with Non-Serfas parts.
- *Do not dismantle the headlight or battery case.
- *Provide sufficient airflow to the headlight for cooling during use.
- *Do not use submerged under water.
- *Do not look directly at light.
- *Do not leave the light on and unattended.
- *Keep headlight and battery away from fire and combustible materials.
- *Do not store head unit when hot or straightway after use.
- *Unplug the USB cable when fully charged.
- *This light is for bicycle use only.
